

Hijos de Juan de Garay S.A.

## **ENVIRONMENTAL POLICY**

HIJOS DE JUAN DE GARAY S.A., aware of the importance and necessity of the protection of the environment, wants to express the involvement of this organisation on achieving environmental management objectives, in keeping with the interest we have on reaching social and financial aims.

The General Management of the company has as main objective to promote and contribute to the protection of the environment, taking as starting point the fulfilment of all the related legislation in force. Therefore, we work on applying environmentally friendly aspects to our production activities, such as the conservation of the natural resources and the selection of materials that could be easily recycled or reused. Moreover, we try to apply cyclical systems in order to reuse the by-products generated in our production processes.

The General Management of Hijos de Juan de Garay S.A. wants to communicate this environmental engagement to all the people related to this organization, taking as main objective the introduction of a general Environmental Management System in the company. All the managers, workers and the related companies should contribute to the achievement of the environmental management objectives, in the same way they collaborate in other usual tasks.

Taking into account the content of this Policy, the President and the General Manager of Hijos de Juan de Garay S.A., want to thank in advance the collaboration and the effort we are requesting, that will surely have a strong positive effect in our surrounding environment.
